- WordPress
- Wirify

Education

Sept. 2023 – Apr. 2027
Wilfrid Laurier University
Brantford, Ontario
Bachelors in Design, Honors

Sept. 2019 – Jun 2023
Nelson High School
Burlington, Ontario

Experience

UXSDA   2024 - Present

- Second-year representative for the User Experience Design Student Association.
- I represent all second year students, handling all questions and concerns.
- Plan and promote events to foster growth and connection among the Laurier UX program

Medlife   2022 - 2023

- Participated in an online fundraiser to raise money for helping the women of Ecuador get proper care and medical attention.
- Participated in another fundraiser in collaboration with Relay for Life. We were raising money for cancer research.
- Both of these fundraisers have allowed me to greatly hone my interpersonal and empathetic skills. As a designer, these skills allow me to tune into different perspectives and fine-tune my designs based on user needs.

Recent Projects

Loyal Blues Fellowship Redesign | Wirify, Figma

- Redesigning the site map for the Loyal Blues Fellowship website with a team. The original website was extremely disorganized and difficult to navigate.

- Our goal was to have a sitemap that was simple, easy, and straight forward for the user compared to the cluttered website that came before.
